Dear Reader,

Peter Van Niekerk re-modelled our kitchen (circa ugly 80's) in the spring of 2007. He was very conscientious and always communicated well as to the timeline so that the other trades could be properly scheduled. His work is well thought-out and executed. He is honest and hard-working. We did not use a designer, but our kitchen now is lovely and we have been very pleased with the final product. We will be hiring Peter again for future projects and have recommended him to friends.

Sincerely

Beverley Complak

P.S. I know for a fact that he is a fan of Mike Holmes.
