Peter Van Niekerk  
Comodo Construction

Dear Peter,

Michelle and I would like to express our great appreciation for your hard work, dedication and expertise pertaining to our basement construction.

We had Ultimate Renovations and Trademark Renovations quote out our basement and what we found was these guys wanted a huge amount of money to fulfill our needs. By using Comodo we had better control of the construction process in even the smallest details that we never would have had with these big contractors. In the end we got exactly what we wanted for substantially less than the big renovation companies. Overall the price and flexibility to create exactly what we wanted was the most important thing.

I would not hesitate to recommend Peter or Comodo Construction for anyone needing basement development whether it is a big job or a small job.

Sincerely,

Brad & Michelle Prather
